DETAILED ACTION

This is the fifth office action for U.S. Application 10/612,220 for a Combination Spring Tension Rod and Mounting Brackets for Window Covering, filed July 2, 2003.

Allowable Subject Matter

Claims 4, 5, 7-16, 18-21, 23, and 24 are allowed. The prior art does not disclose a bracket assembly for use with a spring tension rod with a mounting section with a bearing surface in a first direction; a rod interface coupled to the mounting section and facing in a second direction opposite the first direction and being adapted to connect with one end of a spring tension rod, and arranged relative to the bearing surface to position the rod interface spaced away from a window opening in a direction perpendicular to the first and second directions when the bearing surface is borne against a surface of the window opening, an elbow section coupled to the mounting section and defining the rod interface, the mounting section and elbow being separate parts, and wherein the mounting section has a male attachment mechanism received in a female receptacle end of the elbow, and has a first leg, a second leg connected to and angled to the first leg, and a third leg connected to and angled to the second leg.
